

THE WORLDWIDE LEADER IN PROACTIVE DIGITAL DISPLAY™
AT THE INTERSECTION OF MARKETING AND SECURITY.

Q2-CORPORATE PRESENTATION

CSE: VSBY

WHAT IS VSBLTY?

VSBLTY is a leading Digital Display and Software company that transforms retail spaces and venues.

The Digital Display & Security Markets are projected to reach

\$219B IN JUST 4 YEARS.

FORWARD LOOKING STATEMENT

This corporate presentation may contain certain “forward-looking statements.” Such forward-looking statements are sometimes identified by words such as “intends,” “plans,” “anticipates,” “believes,” “expects” and “hopes” and include, without limitation, statements regarding VSBLTY’s plan of business operations, potential contractual arrangements and pipeline, receipt of working capital, anticipated revenues and related expenditures, and involve a number of risks and uncertainties that could cause actual results to differ materially from projected results. Such factors include, among others, commodity prices, the willingness and ability of third parties to honor their contractual obligations, the decisions of third parties over which VSBLTY has no control, environmental and government regulations, availability of financing, judicial proceedings, force majeure events, and other such risk factors. Many of these factors are beyond VSBLTY’s ability to control or predict. Investors are cautioned not to put undue reliance on forward-looking statements. Except as otherwise required by applicable securities statutes or regulations, VSBLTY disclaims any intent or obligation to update publicly these forward looking statements, whether as a result of new information, future events or otherwise.

Nothing in this presentation is either an offer to purchase, or a solicitation of an offer to sell, shares of VSBLTY or any other entity.

Nothing on this presentation is a solicitation of a proxy from a security holder of VSBLTY or any other company.

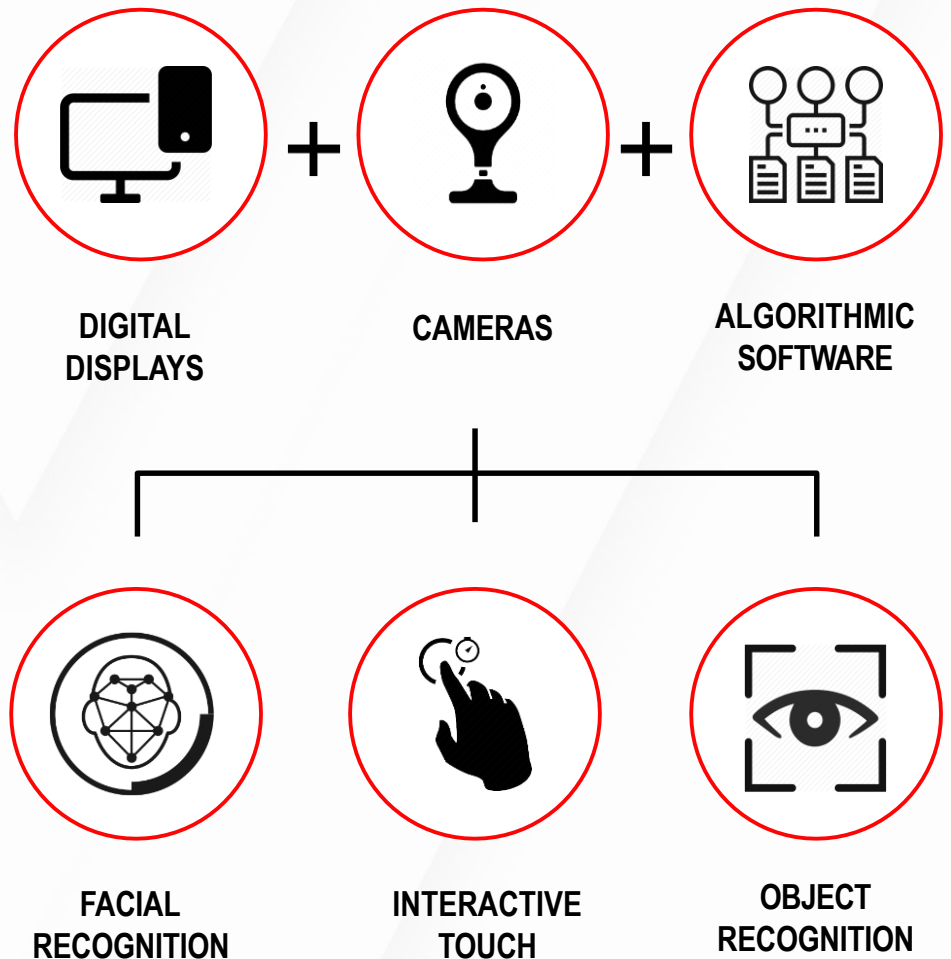

HOW DOES VSBLTY TRANSFORM SPACES?

VSBLTY is the only global enterprise solution that integrates Interactive Touch, FacialAnalytics™, and Advanced Object Recognition by using proprietary and ground-breaking displays, cameras and software to solve the problems of the burgeoning Digital Display and Security Innovation Technology markets.

VSBLTY monetizes their services primarily through software as a service (SaaS) and the company has also evolved to become a full service digital consultant.

THE VSBLTY **SOLUTION**

⊗ RETAIL PROBLEM

Traditional Point of Sales and Out of Home Advertising have very limited engagement, and lack measurement, analytics and attribution.

☑ RETAIL SOLUTION

VSBLTY brings the advantages of online advertising into the brick and mortar landscape with innovative systems that integrate Signage, Security & Analytics – Digital Signs that pull you in, move you around the store or venue, and ultimately increase a brand or retailer's return on investment.

⊗ SECURITY PROBLEM

Security systems with cameras mounted high rely on human analysis to alert a security team.

☑ SECURITY SOLUTION

VSBLTY digital signage, cameras, and proprietary software also have a security application for schools, casinos, retailers and other venues. VSBLTY's facial recognition software and alert system assists security teams and raises the level of public safety, while lowering the view of the camera.

VSBLTY VISIONCAPTOR™

The VisionCaptor™ Content Management System provides a wide variety of capabilities for bringing dynamic, interactive brand messaging to life on any digital screen or platform.

A complete customer experience is created via digital displays, with applications in public spaces including entertainment and sports venues, transit hubs grocery, drug and other retail environments. VisionCaptor™ is optimized to run on multiple form factors.

REAL-TIME ENGAGEMENT & INSIGHTS

VisionCaptor™'s HD and 4K animated messaging combines with in-aisle and end-cap applications of DataCaptor™ to track and measure the customer journey, delivering real-time, actionable insights.

ON THE EDGE

VSBLTY's edge software utilizes Intel's OpenVINO™ platform as a toolkit for running machine learning algorithms. Edge computing enables all of VSBLTY's computer vision services to deliver the power of cloud and local servers right down to the level of a small micro-computer, delivering compute efficiency and eliminating network dependency and latency.

VSBLTY **DATACAPTOR™**

The DataCaptor™ software module leverages camera and sensor technology with artificial intelligence (machine learning and computer vision) to provide real-time analytics and audience measurement. DataCaptor™ allows for custom triggered content based on who the camera “sees” by demographics and sentiment.

All elements of the path to purchase are measured by DataCaptor™, using advanced optics and sensors to provide objective, real-time, qualitative measurement and analysis in retail and other spaces. Not only does DataCaptor™ report demographics like gender, age range and sentiment, but also gathers key analytics like dwell time, total impressions, percent looking at the screen, and content interaction.

VSBLTY VECTOR™

VSBLTY VECTOR™ takes a facial expression in an image as an input and uses the Face API to detect a wide set of emotions for each face in the image, with corresponding confidence levels. If the user has already requested the Face API, they can submit the face rectangle as an optional input.

The emotions detected are anger, contempt, disgust, fear, happiness, neutral, sadness, and surprise. These emotions are understood to be cross-culturally and universally communicated with particular facial expressions.

ADVANCED FACIAL DETECTION

VECTOR™ detects one or more human faces in an image along with face attributes which contain machine learning-based predictions of facial features. The face attribute features available are: Age, Gender, Pose, Smile, and Facial Hair just for starters.

Facial Recognition will:

- ▼ Detect one or more humans in an image
- ▼ Provide partial views of faces calculated
- ▼ Provide 27 landmarks for each face in an image

FACIAL VERIFICATION

Check the likelihood that two faces belong to the same person. VECTOR™ will return a confidence score about how likely it is that the two faces belong to one person.

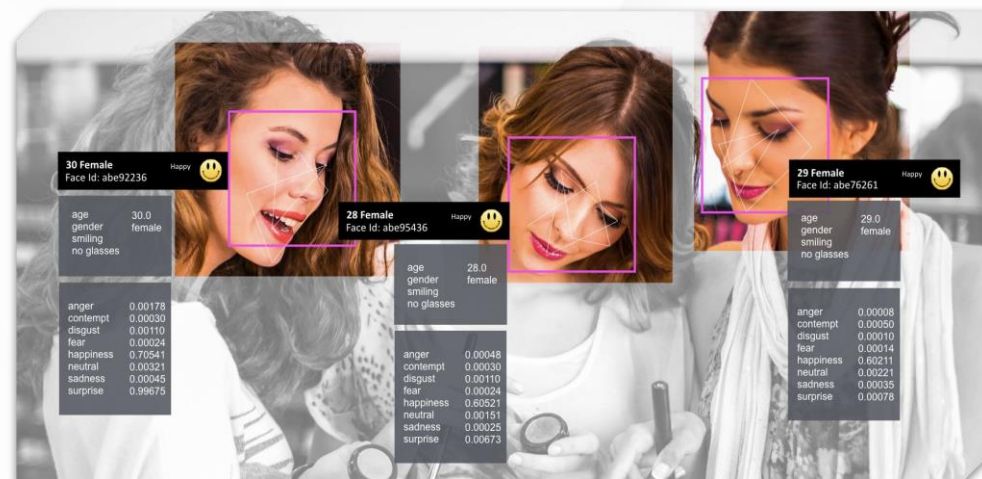

Facial Verification will:

- ▼ Search persons enrolled in a database and in stored video archives
- ▼ Robust and scalable cloud infrastructure for rapid matching
- ▼ Alert notifications options for security enforcement
- ▼ “Confidence rating” based metrics to remove false positives

IN-LINE FREEZER CASE

Tyson® Foods and VSBLTY implemented a digital signage activation pilot program in ten Meijer locations. This program, featuring VSBLTY VisionCaptor™, brought interactive touch screen glass coupled with loyalty program integration and consumer data insights to Meijer freezer doors.

▼ The program objectives were to drive consumer engagement, impact in-store purchase behavior and gain actionable information about Tyson products consumers through VSBLTY VisionCaptor™. VSBLTY VisionCaptor™ marries high impact, engaging motion graphics and interactive brand messaging on glass displays at point of purchase.

▼ VSBLTY worked with 10 Meijer locations to replace the existing inline freezer doors with VSBLTY proactive digital display doors. For four weeks, the freezer door served interactive and engaging content across 7 Tyson products. It was also the first pilot to integrate digital coupon connected to the Meijer consumer loyalty program. Consumers could scan a bar code with their loyalty app to receive a discount.

▼ Weekly price changes. In the grocery retail environment, prices can change weekly. VisionCaptor was an ideal solution for quick and easy price updates. All content was uploaded to the cloud and then downloaded weekly to the store for deployment.

▼ This first of its kind deployment was a success. The combination of technology, brand creative and loyalty program integration drove results that significantly outperformed our existing benchmarks and saw an increase in category interaction.

CES LAS VEGAS **CASE** VSBLTY FACIALANALYTICS™ & SECURITY PERIMETER

In 2019 VSBLTY was asked to deploy a security perimeter for one of the world's most valuable tech giants at a temporary trade show display that was so big, they couldn't build it in the convention center. This US Fortune 50 tech company created a 3 story display that took over the parking lot at the Consumer Electronics Show in Las Vegas. Over the 5 day event, 19 IP cameras were deployed, powered by VSBLTY Vector™.

VSBLTY CONSTRUCTED LOCAL DATABASE OF SEVERAL HUNDRED "KNOWN" PERSONS"

▼ These persons represented an active threat to a major Company's assets, Personnel and its brand

VSBLTY INTERFACED TO SECURITY OPERATIONS CENTER

- ▼ Alerts were provided to security personal with confidence rating
- ▼ Operator did a visual confirmation comparing database photos with live photos
- ▼ Decision was made by operator regarding intervention

- ▼ Age range of persons
- ▼ Traffic by hour and by day
- ▼ # of faces detected (no signage was deployed)
- ▼ Movement of persons within the facility (heatmap)
- ▼ Where in the facility did crowdsgather

OPENVINO

VSBLTY SAAS SOLUTIONS OPERATE WITHOUT CLOUD DEPENDENCY

VSBLTY is a pioneer on Intel's Edge architecture, OpenVINO™. The Intel® Network Builders Edge Ecosystem is a new initiative gathering ecosystem partners with a focus on accelerating network edge solutions. Spanning across multiple verticals, the Intel Network Builders Edge Ecosystem highlights the industry leaders driving the development, deployment, and adoption of edge-centric technologies.

VSBLTY'S UTILIZATION OF OPENVINO ENABLES VSBLTY TO IMPROVE:

GROSS MARGINS

Impactfully reduce Cost of Goods Sold due to smaller operational and data management expenses, which drastically improves VSBLTY's Gross Margins

PERFORMANCE & SPEED

Performance and speed of the network increases radically by decreasing the number of hosts between the data's source and destination

PRECISION & ACCURACY

Edge computing provides a significant decrease in latency due to the locality of the data's source and therefore increasing precision
